5. [] In response to his call, I met with Mr. Art Kuhl, Chief Clerk, Senate Foreign Relations Committee, who showed me a letter to Chairman Fulbright dated 25 September from the Director of the Bureau of Narcotics and Dangerous Drugs concerning the burning of 26 tons of opium at Chiang Mai, Thailand in March of this year. Mr. Kuhl asked if it could be possible for him and Carl Marcy, of the Committee staff, to see the Central Intelligence Agency reports referenced by the Director, BNDD, on a completely informal nonattributable basis.

7. [] Dr. Joseph Thach, House Internal Security Committee staff, called to determine if the Agency would have any problem if the Committee hearing on certain legislation contained excerpts from the [] on Jane Fonda's statements over Radio Hanoi. Based on the advice of Mr. Proctor and Mr. Houston, I told the Committee's Chief Counsel, Don Sanders, that we had no problem with the use of the material, but for a number of reasons we strongly felt that all [] should be struck. []

25X1 3. [] A meeting was held with Bill Phillips, Jim Kronfeld, and Norm Cornish, staff members of the Foreign Operations and Government Information Subcommittee, House Government Operations Committee, to discuss the Agency's implementation of Executive Order 11652 on classification. I briefly described the Agency's procedures and the regulations issued implementing the Executive Order, and explained that the Agency's regulations were internal and could not be made available to the Committee. They understood and will accept as the Agency's unclassified regulations the procedures for the Agency's handling of outside requests for information as recently published in the Federal Register. We further agreed that a letter from the Agency as to the implementation of the Executive Order would not be necessary.

25X1 4. [] Called Paul Woodard, Justice Department, to get a report on what the Department is doing on the Ervin bill rider. Woodard was unaware of the amendments that the Civil Service Commission had prepared as a fallback position in the event there was a setback on the issue of germaneness. I told Woodard that we were working on the assumption that the Department had greater leverage than other departments and agencies with the Judiciary Committee, that some of the most troublesome features of the legislation involve the Department's responsibility and for this reason we were particularly interested in knowing what their stand would be and the progress they are making. Woodard, explaining that he had been on leave for a time, promised to get back in touch as soon as he had anything to report.

25X1 5. [] Called Charles Parker, in the Office of Management and Budget, and asked if there had been any progress in resolving the retirement funding issue since we were working up our annual legislation proposal for submission to OMB and would like to include the agreed upon formula if at all possible. Parker said final decision had not been made and recommended that we submit the old package with the old formula.

8. [] Checked in with Herb Hoffman, House Judiciary Committee staff, to get a status report on H. R. 12652 and to tell him that the Director had on his desk a letter to the Chairman which would probably be over tomorrow. Hoffman said that they were awaiting the appointment of Senate conferees and said he has no further information on action to be taken.

25X1

9. [] Talked to Wally Johnson, of the White House staff, about the status of H. R. 12652. Johnson had no information but suggested we give Paul Woodard, Justice Department, another call. He said if we had any difficulty getting any satisfaction from Woodard to let him know.

25X1

10. [] Dr. Joseph Thach, House Internal Security Committee staff, called to express his appreciation for the listing provided him on certain Hanoi broadcasts (see Journal of 24 August 1972) and said that a group known as the American Servicemen's Union had publicized that North Korea had agreed to broadcast tapes of comments by Tom Soto, Andy Stapp and Bruce Choy twice weekly to GIs in Korea, Japan and Southeast Asia commencing May 1972.
